“I Have A Dream”

“I Have a Dream..”

"I Have A Dream"

"I Have A Dream" is the popular name given to the public speech by Martin Luther King, Jr., when he spoke of his desire for a future where blacks and whites. This quote is one of the most popular quotes in the world. He showed the entire world that every dream can turn into reality if you have determination to achieve.

Our target group is the youth & students who are very familiar with this quote. Every young heart has a dream for tomorrow, a dream to create an identity, to become a personality & a successful man.

"I Have A Dream"

So our aim is to create self belief amidst the students to make them believe that they can do it. MVN being one of the finest educational institute to guide them & teach them ultimately to achieve their goal. And they can fulfill their dream with MVN

In the visual we are showing students in different colours signifying their different moods & different stages of life & finally coming into full colours in MVN. So the concept & the communication is easy to recall & proud to be associated with.
